📄 SUMMARY

Results-driven Full Stack Developer with a strong foundation in frontend technologies (HTML5, CSS3, JavaScript, React) and growing proficiency in backend development (Node.js, Express.js, REST APIs, MongoDB). Holds a 1st Class Honours BSc in Computer Science and brings additional experience in IT infrastructure, network administration, and system support. Passionate about building responsive, scalable web applications and delivering efficient, end-to-end digital solutions.

📁 WORK EXPERIENCE

04/2023 – 09/2023
Warri, Delta

Jireh Technologies Limited - Contracted to SPDC Shell, Ogonu.

IT OFFICER

- Secured and maintained IT infrastructure, ensuring high availability and reliability.
- Installed, configured, and troubleshoot hardware and software to optimize system efficiency across the SPDC organization.
- Managed servers, workstations, and MySQL databases to ensure seamless day-to-day operations.
- Provided technical support for loan applications and financial systems, reducing downtime and improving staff productivity.
- Trained staff on loan processing tools and cybersecurity best practices, strengthening digital literacy across departments.

06/2025 – 04/2026
Port Harcourt, Rivers

M-R International (MRsoft)

FULL-STACK DEVELOPER INTERN

- Built and enhanced responsive UI components using HTML5, CSS3, JavaScript, and React, improving cross-device compatibility and user experience.
- Contributed to backend development using Node.js and Express.js, supporting REST API integration and server-side functionality.
- Optimized website performance, reducing load times and ensuring smooth interactions across multiple browsers and devices.
- Collaborated with the development team to deliver user-friendly web solutions aligned with project requirements and timelines.
